Summary

Science Communication & Content Specialist with a Master's degree in Biotechnology (Bioinformatics) and experience in science communication, event organization, and content creation. Experienced in translating complex life science topics into clear and structured communication for non-specialist audiences. Background includes science outreach, genomics communication, and content production for educational and research-related initiatives.

Experience

Event Support (project based), *WeAreDevelopers, World Congress 2025, Berlin, Germany*

Jul 2025

- Managed on-site registration and participant logistics for an international tech conference.
- Coordinated between venue staff and the organizing team to ensure smooth event operations.

Event & Administrative Coordinator

Apr 2023 – Jun 2024

Panoramik Games Ltd, Belgrade, Serbia

- Led concept development and preparation of materials for corporate events and team retreats for up to 300 participants across an international team.
- Created event communications and branded materials including agendas, guides, welcome packs, and presentations.
- Coordinated vendors, scheduling, and operational logistics across on-site and remote events.

Science Content Creator / Administrative Support

Nov 2020 – Dec 2022

Kurchatov Institute, Genomic Center, Moscow, Russia

- Produced science communication content on genomics and biotechnology topics for public-facing platforms, including blog articles, social media posts, and visual explainers.
- Designed infographics and educational materials to make complex research topics accessible to non-specialist audiences.
- Translated scientific source materials into structured written and visual formats independently.

Marketing Support Specialist & Science Communication

Jun 2018 – Oct 2020

Nuclear Industry Information Center, Moscow, Russia

- Developed and delivered content for science communication campaigns reaching up to 15,000 visitors, including social media posts, newsletters, blog content, and infographics.
- Prepared press releases and communication materials for media and partner distribution.
- Planned and coordinated communication activities across regional teams; managed workflows using internal CRM tools.

Volunteer experience (Science Communication Activities)

2015–2018

Immanuel Kant Baltic Federal University, Kaliningrad, Russia

- Supported organisation of university science outreach events and public lectures.
- Assisted in preparation of communication materials for educational events.

Education

BSc and MSc degree in Biotechnology (Bioinformatics)

2015–2020

Immanuel Kant Baltic Federal University, Kaliningrad, Russia

Degree officially recognized in Austria.

Focus: bioinformatics, statistics, scientific communication

Conference poster in genomics research (MCCMB 2019)

Skills

Content & Communication: Science communication · Copywriting · Content planning · Blog writing · Social media content · Infographics · Presentations

Design & Tools: Canva · Figma · Adobe Creative Suite · PowerPoint · Google Slides

CMS & Web: Webflow · WordPress · Tilda

CRM & Workflow: Jira · Trello · Bitrix24 · YouTrack

AI Tools: ChatGPT · Claude · Higgsfield · Midjourney

Languages: Russian (native), English (working proficiency), German (B2, currently improving)

Domain knowledge: Biotechnology · Bioinformatics · Genomics · Scientific communication · Basic understanding of bioprocessing concepts (upstream/downstream, bioreactors)
